

## PARTNERSHIP AGREEMENT

This Partnership Agreement (“Agreement”) is effective as of the date of the last party to sign below and is between the **Board of Trustees of Southern Illinois University**, a body politic and corporate of the State of Illinois, governing Southern Illinois University Edwardsville, including its School of Nursing, (“SIUE”) and **Illinois Valley Community College** (“IVCC”), a community college organized and existing under the laws of the State of Illinois.

WHEREAS, SIUE and IVCC share a common pride and a history of serving the state of Illinois with high quality educational programs and offering curricula that combine various disciplines in arts and sciences with programs that prepare students for careers in various fields; and

WHEREAS, SIUE and IVCC desire to enter into this Agreement to establish a Pathway RN/BS Program to increase opportunities for student access to and success in a Nursing education by mutually agreeing to clarify transfer policies and procedures that assure articulation between programs and to assist students in making a seamless transfer of IVCC course work to SIUE for the completion of the baccalaureate degree in Nursing;

NOW THEREFORE, in consideration of the mutual covenants and promises contained herein, the parties agree as follows:

- I. **Purpose** - The purpose of this Associate degree to Bachelor’s degree Pathway Program is for IVCC students to be able to obtain a Bachelor’s degree in Nursing at SIUE after attending Illinois Valley Community College. IVCC students will complete an Associate degree and the majority of the general education requirements in preparation for attending the RN/BS Program at SIUE School of Nursing. Upon completion of the requirements of both institutions, a student will qualify for an Associate in Applied Science degree from Illinois Valley Community College, and then a Bachelor of Science degree in nursing from SIUE. Sample curricula outlining how a typical student would be able to satisfy the requirements is attached to this Agreement. The two institutions agree to inform each other of any future curriculum changes so that the basic Agreement remains in force as curriculum changes occur at either school.

## II. **Policies and Procedures for Operation of Pathway RN/BS Program**

### A. Student Admissions Eligibility

1. A student is required to submit a Pathway Application for Admission to SIUE. This application is submitted after the student is enrolled in the Associate Degree in Nursing track at IVCC. Although a student will be admitted to SIUE upon receipt of the application, the student will not matriculate to SIUE until minimum admission standards have been achieved and all prerequisite coursework is completed. This should be accomplished through the successful completion of the outlined curriculum included in this Agreement.

2. The SIUE program curriculum will remain unchanged from a student's point of admission throughout continuous enrollment and timely completion of degree requirements. A student failing to complete requirements within the timeline established by SIUE policy may be subject to new and/or revised requirements.
3. Prior to the student's anticipated entry term, SIUE will review the student's academic progress to ensure that admission requirements to the University have been satisfied. Students meeting requirements will be eligible to enroll at that time.
4. A student who is satisfactorily completing the first two semesters of the curriculum at IVCC as outlined in the BS in Nursing Partnership progression plan and has completed required prerequisite coursework, will be admitted directly to the SIUE RN/BS program and may enroll in NURS 240R and NURS 335R during their third and fourth semester, prior to obtaining RN licensure. Once a student has successfully completed the ADN program at IVCC and licensure as a registered nurse is obtained, a student may progress through the remaining RN/BS nursing courses (NURS 472R, 475R, 484R, and 480R). Upon enrollment in NURS 475R, SIUE will award 40 or 43 proficiency credits for nursing course work completed in the associate degree within the nursing program at IVCC.

#### C. Academic Standing & Retention

Once admitted to SIUE, students will be subjected to standard retention requirements applied to all SIUE students. Students must maintain a cumulative GPA of 2.0 to remain in good academic standing. Upon matriculation to SIUE, students must adhere to the SIUE and individual RN/BS program of study retention standards.

#### D. Transfer of Coursework

Upon receipt of official transcripts from IVCC, SIUE will record all transfer credit to the student's record as articulated.

### III. SIUE Responsibilities

- A. Designate a contact person to handle all communication with IVCC that relates to the administration of the Pathway RN/BS Program.
- B. Each semester will provide IVCC with a list of IVCC students enrolled in the Pathway RN/BS Program.
- C. Inform IVCC of any current and planned changes to the curriculum that may impact the operation of the Pathway RN/BS Program.
- D. Consult with, and obtain approval of, the IVCC Office of Marketing and Communications prior to using IVCC name and/or logo in any recruitment materials for the Pathway RN/BS Program.

**\*\*Students must complete 50% or more of SIUE degree requirements at SIUE.**

Once a student entering the RN/BS program provides evidence of a current unencumbered RN license, the School of Nursing will complete an overall assessment of the student's work experience and the previously completed community college and university nursing coursework. The School of Nursing may then grant up to 40 or 43 proficiency credits to provide the student with advanced standing in the nursing program. These credits differ from the transfer of courses. If the student's college/university credits are greater than 5 years old, the candidate will need to submit a portfolio to demonstrate proficiency in the areas in which credit is sought along with evidence of a current unencumbered RN license.
