BE PREPARED
- Bring everything with you that you will need.
  (Drummers work out equipment needs and responsibilities)

BE ON TIME
- Setting up your instrument and sorting music as rehearsal
  starts is too late.

LISTEN
- Talking should only be done by the director. Listen to all
  instructions, even if they seem to not apply to you.

LEARN
- We have many members with years of Jazz experience.
  Listen and learn from them. It’s easier to emulate
  experienced players than to learn from your own mistakes.
  Always build upon what you were previously taught. Basic
  skills should be automatic; advanced skills should be
  improving every rehearsal and practice session. Practice
  does not make perfect – perfect practice makes perfect.
  Don’t continue to make the same musical errors.
