Addendum #1

DATE: April 2, 2010

PROJECT: Security Surveillance System – IVCC Ottawa Campus
Bid No. PR10-B10

Illinois Valley Community College, District 513
815 N. Orlando Smith Ave.
Oglesby, IL 61348

This addendum forms a part of and modifies the document for the subject project. Receipt of this addendum is to be acknowledged on the Bid Form.

1. Is all cabling already installed?

Refer to spec. 17840, paragraph 2.13. All horizontal cabling is to be installed by others within the project. All cabling within the cabinets or as directed on the drawing need to be included in the bid. All terminations are also to be included with the security contractor’s bid.

2. Must the security contractor have a State of Illinois license?

Refer to spec. 17840, paragraph 3.1 H. This is for the electrical contractor (Vissering). This is not a requirement of the security contractor on the project.

3. Is 120v power included in our bid?

Refer to spec. 17840, paragraph 3.1 H. This is to be provided by others (Vissering). Do not include in the bid.

4. Is the security contractor just providing and installing the equipment?

For the most part, yes. There is to be some amount of cabling (mainly patch cords) to be provided in the project. There are also required submittals, warranty, and training that needs to take place. Review the spec section and drawing for additional information.
