</table>

**Course Availability**

All courses on the new Blackboard hosted server will be set as unavailable until you set them to available, by selecting course availability within the settings menu.

**Set Availability**

Select the yes radio button and submit.
**Enrollment Options**

To set your enrollment options select settings from the course options area of the control panel and select enrollment options.

You may choose Instructor Enrollment or Self Enrollment and submit.

**Categorize Course**

To categorize your course so that it will appear in the Fall 2007 listing of Blackboard courses, select Categorize Course from the Settings options.
Select Fall 2007 Classes from the pull down menu, click the Add button at the left to add your class to the Fall 2007 listing, and select ok.
