Cengage Learning System Assessments

The Cengage Systems assessments are found in the CL Assess folder. Click on the folder to view the existing assessments.

To preview an assessment click on the link for the assessment, and select the take test button.

To change the test settings click on the Settings link below the test link.

By default the normal settings screen is displayed. To view the advanced options, which allow a test to be made available on a specific date for a limited period of time, select the advanced option.

The controls for when an assessment may be taken will be found in the access tab.
