VERIFICATION OF TEMPORARY DISABILITY

Students seeking accommodations on the basis of a temporary disability must provide documentation from an appropriate licensed professional verifying the nature of the impairment, stating the expected duration of the impairment, and describing the accommodations deemed necessary and appropriate to the educational setting. Such verification must be provided by an appropriate licensed professional who is qualified in the diagnosis of such impairments. The assessment or verification of disability must reflect the student’s current level of disability and shall generally be no older than 10-15 days. The student shall provide the verification documentation to the Office of Disability Services. The cost of obtaining the professional verification shall be borne by the student.
