- Award Results Sorted by State/Province: Budget Years Beginning 1/1/2014
- Reviewers of Budget Documents During 2015 Calendar Year
- Details on how to become a Participant or Reviewer

The GFOA established the Distinguished Budget Presentation Awards Program (Budget Awards Program) in 1984 to encourage and assist state and local governments to prepare budget documents of the very highest quality that reflect both the guidelines established by the National Advisory Council on State and Local Budgeting and the GFOA's best practices on budgeting and then to recognize individual governments that succeed in achieving that goal.

Documents submitted to the Budget Awards Program are reviewed by selected members of the GFOA professional staff and by outside reviewers with experience in public-sector budgeting. The following links offer access to detailed information on specific aspects of the Budget Awards Program:

New Best Practices in Community College Budgeting

- Best Practices developed in conjunction with a number of CC partners – including several from Illinois
- Done in conjunction with new Best Practices in School Budgeting
- Focuses on budget process as a whole – not just the presentation
- Centered on aligning of resources to student achievement
- Emphasis on collaboration between Finance and Academic staff
Change Underlying Basis for Budget Process

● “Traditional” Budget Model:
  - Limited resources drive spending plan
  - More reactionary than pro-active

● Best Practices Budget Model:
  - Focus on student outcomes rather than limited resources
  - Budget driven by strategic plan
  - Continuous improvement principles
Core Concepts of New Best Practices

- Develop Inputs
- Define Goals
- Develop Strategies
- Prioritize Spending
- Check Performance
Organization of the Best Practices

- Each one of the aforementioned 5 areas is broken down into further detail
- Additional detail will assist in implementation of new process and offer suggestions and examples
Guide budget process by establishing a baseline:

- Budget principles to guide overall process
- Adopting policies to frame desired financial outcomes
Develop Inputs – Assess Current State

Analyze forces that impact the budget:

- Current revenue and expenditure structure - utilize long-term forecasts
- Student performance data to inform budget decisions
- Internal capabilities – HR, student needs, remediation
- External influences – stakeholders, labor market, legislation
Define Goals - Development

- Define goals using SMARTER framework
  - **Specific**
  - **Measurable**
  - **Achievable**
  - **Relevant**
  - **Time-bound**
  - **Exciting**
  - **Resourced**
Define Goals – Examine the Gaps

Root Cause Analysis – look at common categories that may cause the gaps:

- Organizational capacity
- Integrated support for students
- Adequate support for remedial students
- Instructional program coherence
- Choice architecture
- Physical plant
- Measurement systems
Root Cause Analysis – 5 Whys

**Problem:** Students are not completing required classes in time to graduate on schedule.

1. **Why?** Students can’t get into classes.

2. **Why?** There are not enough sections offered at accessible times.

3. **Why?** Faculty are not available to teach on weekends, evenings, and early mornings.

4. **Why?** Faculty already have full loads and other commitments.

5. **Why?** There are not enough faculty to teach the required classes.

**Solutions:** Explore using adjunct faculty to teach additional sections of required courses or teach other courses to free up full-time faculty to teach courses. Evaluate all course offerings to see which courses don’t have sufficient enrollment and re-assign those faculty to teach additional sections of the required courses.
Develop Strategies

- Research and utilize proven practices to help address deficiencies
- Develop strategies to close gaps
- Develop plan to implement strategies
- Formally adopt strategies
Prioritizing Spending - Enact Strategies & Allocate Resources

- Prioritize Expenditures
- Define Subunits/Cost Centers
- Allocate Resources
Prioritize Spending – Budget Document

Fundamental organization of the Budget Document

- The Challenges
- Goals
- Strategies and Initiatives
- Financial Plan
- Long-Term Financial Sustainability
Challenges and Solutions

Introduction to Challenges and Solutions

Like any organization, the College faces a variety of challenges to completing its mission and realizing its vision. The College’s main challenge is the long-term structural deficit due to a low property tax rate compounded by cuts to state aid. Another challenge has been trying to align performance measures with an existing strategic plan and budget development process. In addition, the College is below state average in a few retention and completion measures. Finally, two smaller challenges have to do with lack of enough budget detail codes in the academic division and lack of formalized budget procedures.

Fortunately, the College has a strong foundation for overcoming these challenges, starting with it’s strategic planning process. Through this process the College has identified five specific goals, which guide the college’s financial planning:

- Tell the organization’s “story”
- Challenges – outline the most important issues that the college is facing
- Goals – address the aforementioned challenges

Strategies and Initiatives

- What will the goals accomplish?
- Cost, where determinable
  - New spending? Re-purposing of existing resources?
  - One-time? Ongoing?
- Accountability and schedule
Financial Plan

Summarize how the College’s finances are aligned with its goals:

- Revenues
- Expenditures
- Reserves
- Debt and capital

Key Considerations for Budget Document

- Include All Funds in Budget
- Transparency in Spending
- Transparency in Reserves
- Provide Context
Check Performance

Ensure new process is on-track:

- Monitor strategy implementation
- Evaluate interim results throughout year
- Adjust strategy and budget accordingly
Enhanced Budgeting Practices

Included in the new Best Practices and covers the following topics:

- Governance and ownership of the budget process
- Establish criteria and measures for success of the budget process
- Allocate costs of shared support services to subunits
