Experience. Interact. Engage. *From Home.*

IVCC has offered online learning opportunities for over 11 years. We are pleased to announce an expanded library of online classes for you to select from for professional development hours, industry certification, increasing workforce skills and even for your own personal interest.

A variety of learning options are available for most classes: a traditional instructor-led online course or a self-paced tutorial (independent study), where you can work through the course material at your pace.

"This was a great course that will help me streamline differentiated instruction within my classroom so that I can meet the needs of all my students."

- Amy O,
Differentiating K-12 Assessments,
Completed Spring 2023

REGISTRATION CONFIRMATION

You will receive a confirmation of your registration by email. Confirmation will include a schedule, receipt and information specific to your classes.

REFUND/CANCELLATION POLICY

To cancel your registration before a class starts, please call (815) 224-0427. Refunds will be issued to students who cancel the class at least one business day prior to the class date, unless otherwise noted. Programs with different refund policies are so stated at point of registration.

Top career training courses include:

- Medical Billing & Coding
- Pharmacy Technician
- Human Resource Professional
- Certified Paralegal
- Certified Medical Transcriptionist
- Digital Court Reporting
- Certificate in Data Analysis
- Google Analytics Certificate
- Digital Marketing Certificate
- Certificate in Workplace Communications

Medical Billing & Coding*

[370 Hours | 12 Months] WIOA & PATH grant eligible
Call Lexis Leiteritz (815) 224-0490 for more information or assistance with registration.

Whether you're just starting work or transitioning into a different field, there has never been a better time to enter a career in Medical Billing and Coding. This course will prepare you for success within this rewarding career. You will learn about the legal, ethical and regulatory concepts central to this field, and you will also choose a voucher for professional certification that best aligns with your interests and career goals.

More than one million practicing physicians in the United States rely on medical billers and coders to receive payment for their services. Besides medical facilities, positions are available with health insurance companies, specialty pharmacies, medical suppliers, consulting firms, and national medical coding and billing companies - the opportunities are nearly endless.

Medical billers and coders are in high demand. This course offers valuable training in legal, ethical, and regulatory concepts central to this field, including HIPAA compliance, official coding guidelines, and third-party payer requirements. You will also come to understand all phases of the revenue cycle from patient registration through medical coding, claims submission, reimbursement, and collections. Learn common medical terminology to help you converse with others in healthcare easily and with confidence. Study word parts and the structures and functions of the human body. Also presented are the disorders and medical procedures common to each body system, including musculoskeletal, cardiovascular, respiratory, digestive, nervous, endocrine, integumentary, genitourinary, lymphatic and immune.

After successfully completing the course requirements, you should be well prepared to find your place in this rewarding healthcare career. You will receive a Certificate of Completion from Illinois Valley Community College and you will also be able to choose a voucher for the professional certification that best aligns with your interests and career goals.

- Certified Professional Coder (CPC) exam offered by the American Academy of Professional Coders (AAPC)
- Certified Coding Associate (CCA) exam offered by the American Health Information Management

- Association (AHIMA)
- Certified Billing and Coding Specialist (CBCS) exam offered by the National Healthcareer Association (NHA)

**** There are no prerequisites to take this course. However, in order to sit for national certification exams, candidates must have a high school diploma or equivalent.**

Online Self-Paced

Tuition: \$2,995

Pharmacy Technician*

[400 Hours | 12 Months] WIOA & PATH grant eligible
This online pharmacy technician certification course will prepare aspiring pharmacy technicians in how to assist the pharmacist in the packing and distribution of medication. Students will receive didactic and hands-on training to develop the skills necessary for employment in the field.

Enroll in this comprehensive online pharmacy certification course to acquire the essential knowledge and skills needed to assist pharmacists. This course will prepare you for entry-level pharm tech positions by teaching you medical and pharmaceutical terminology, basic anatomy related to the pharmacology of medications, and pharmaceutical calculations. Through this course, you will obtain hands-on practice in retail pharmacy procedures through an online lab module. You will learn what information is necessary to process prescriptions and physician orders and apply that knowledge to fill mock prescriptions. The curriculum in this online pharmacy technician course also includes the ethics of pharmacy practice and education about prescription medications, patient care and interaction, and charges and reimbursement.

Upon completion of this course, you will be prepared to sit for the Pharmacy Technician Certification Exam (PTCE) offered by the Pharmacy Technician Certification Board (PTCB). This course includes a voucher which covers the fee for the exam. As a part of the Pharmacy Technician Online Certification Training Course, you will also have the option to perform a hands-on, 100-hour Practicum Experience. Practicum Experiences are based on individual state board requirements.

Online Self-Paced

Tuition: \$2,995

Certified Medical Administrative Assistant*

[160 Hours | 6 Months] Path Grant Eligible

Are you interested in entering a high-demand field? According to the U.S. Bureau of Labor Statistics, the job market for medical assistants will grow by a remarkable 16% through 2031, which is much faster than the average job. This course will teach you how administrative medical assistants are versatile and valuable members of the healthcare team who handle a broad range of duties and are skilled multi-taskers that direct the flow of patients through an office. Effective patient flow allows the practice to operate efficiently, increase revenue, and provide a positive experience for the patient.

Their duties include maintaining the reception area, welcoming patients and visitors, scheduling appointments, gathering demographic information, verifying insurance eligibility, obtaining prior authorizations, collecting co-payments, and communicating via the phone and patient portal. This online administrative medical assistant certification course will prepare you for positions working alongside medical providers performing these administrative duties.

Upon completion of this training course, you will be prepared for the Certified Medical Administrative Assistant (CMAA) national certification exam offered by the National Healthcareer Association (NHA). This CMAA certification course includes a voucher that covers the fee for the exam. The course also includes an opportunity to participate in clinical experience.

**** To qualify for the clinical experience applications process, students must successfully complete the online course and have account balances up to date (at a minimum). Going through the clinical experience application process does not guarantee a placement.**

Online Self-Paced

Tuition: \$1,895

Certified EKG Technician*

[170 Hours | 12 Months] PATH Grant Eligible

Electrocardiography (EKG) technicians are vital members of any healthcare team. If you want to join the booming healthcare industry as an EKG tech, this in-depth course will train you to apply, monitor, and measure electrocardiography tests in a flexible, online learning environment. You will also learn key subjects needed to earn a nationally recognized EKG technician certification, such as measuring basic vital signs, performing rapid response procedures, operating an EKG machine and identifying rhythms. Upon course completion, you will be prepared to take the Certified EKG Technician (CET), provided by the National Healthcareer Association (NHA). This course offers enrollment with a voucher for the Certified EKG Technician (CET) certification exam. The voucher is prepaid access to sit for the certifying exam upon eligibility.

The course also includes an opportunity to participate in a clinical experience. *** To qualify for the clinical experience application process, students must complete the online course successfully and have account balances up to date (at a minimum). Going through the clinical experience application process does not guarantee a placement.**

Online Self-Paced

Tuition: \$1,995

Certified Physical Therapy Aide*

[190 Hours | 9 months] PATH Grant Eligible

The demand for physical therapy aides is increasing rapidly. In fact, PT aide jobs will grow over 25% by 2030. This online course will help you master the skills you need to work as a physical therapy aide.

You Will:

- Explain the role, responsibilities, and qualifications of the certified physical therapy aide in various healthcare settings.
- Define medical terminology and word elements related to the practice of physical therapy.
- Summarize human anatomy, functional body movements and system disorders as they relate to physical therapy.
- Identify proper positioning, patient transfers, common exercises, modalities and medical equipment.
- Demonstrate ethical and legal behavior specific to healthcare settings.
- Differentiate between tasks appropriate for a certified physical therapy aide and other healthcare professionals.

Not only will you be prepared for the AMCA's Physical Therapy Technician/Aide certification exam, but an externship starter kit will also walk you through everything you need to know to land a PT aide externship.

**** To qualify for the externship applications process, students must successfully complete the online course content and have account balances up to date (at a minimum). Going through the externship application process does not guarantee an externship. Students can begin researching the steps of the application process 2 weeks prior to completing courses.**

Online Self-Paced

Tuition: \$2,145

Patient Care Technician*

[300 Hours | 12 Months] PATH Grant Eligible

Patient care technicians play an important role in patients' lives. With healthcare demand at an all-time high, you can be the professional providing this vital care. This online patient care course will help you gain the skills needed to work with patients in various healthcare facilities. You

will also prepare to become a Certified Patient Care Technician Level I, a valuable professional credential that validates your specialized skill set.

What You Will Learn:

- Introduction to patient care, legal issues in healthcare, standard precautions and infection control
- Medical terminology, physical examination, patient positioning, bed mobility, range of motion
- Therapeutic exercises, gait, assistive devices, orthosis and prosthesis, transfer techniques
- Wound care and pressure sores, wheelchair management, patient care competency, special topics

You will also receive a prepaid voucher for the Certified Patient Care Technician Level I Exam, offered by the American Education Certification Association (AECA). The voucher is prepaid access to sit for the certifying exam upon eligibility.

Online Self-Paced

Tuition: \$2,745

NEW! Sterile Processing Technician*

[190 Hours | 12 Months] PATH Grant Eligible
Sterile Processing Technicians (SPT) play a critical role in preventing infection by sterilizing, cleaning, processing, assembling, storing, and distributing medical supplies. This online sterile processing technician certification course will train you to work as an SPT and prepares you for the Certified Registered Central Service Technician (CRCST) certification offered by the Healthcare Sterile Processing Association (HSPA). This course also includes a voucher which is prepaid access to sit for the certification exam upon eligibility.

With the support of an instructor, you will learn all the necessary steps required to perform the duties and tasks of an SPT. In this sterile processing technician training course, you will learn the details and expectations within the concepts of the role and gain proficiency in understanding the step-by-step requirements of the sterilization process.

The course also includes an opportunity to participate in a clinical experience. ****To qualify for the clinical experience application process, students must complete the online course successfully and have account balances up to date (at a minimum). Going through the clinical experience application process does not guarantee a placement.**

Online Self-Paced

Tuition: \$2,795

NEW! Patient Access Representative*

[250 Hours | 12 Months] PATH Grant Eligible
A patient access representative (PAR) is an integral part of all hospital and outpatient care practices. Patient representatives act as liaisons between healthcare professionals and patients to improve the patient's experience within the healthcare

system. They also have the skills to support both front and back-office staff, which helps prevent gaps in care, administration, and financial activities, allowing them to be one of the top jobs in healthcare administration.

This patient access representative training bundle provides the knowledge to navigate these systems for those with limited or no healthcare experience. With technology skills also required for this allied healthcare position, obtaining active learning through an electronic health record simulator will provide a complete user experience with all aspects of that equipment-which you will find in many healthcare settings. In-person and telephone communication skills are critical for people in this position, so you will address strategies that can be used in the most common situations in many healthcare settings. This course also prepares you to become a patient service representative, someone who collects information from patients before their medical appointments and answers any questions about billing. You will move through the program at your own pace, and your facilitators will be there with you every step of the way to provide clarification, support, and guidance.

This comprehensive course bundle also features a medical terminology course that will help you gain a greater understanding of the human body, how to describe it, and how to use medical terminology in a healthcare setting—ensuring you have the fundamentals to launch your new healthcare career.

The Patient Access Representative course provides comprehensive training that will prepare you for the Certified Medical Administrative Assistant (CMAA) and Certified Electronic Health Record Specialist (CEHRS) certification exams through National Healthcareer Association (NHA). This course includes vouchers that cover the fees for these exams.

Online Self-Paced

Tuition: \$2,695

HEALTHCARE

CNA Train the Trainer Online

Includes Alzheimer's Disease and Approved Evaluator Components [50 Contact Hours]

This course will consist of 5 weeks of online instruction. Students will spend time completing readings, discussion postings and assignments. 50 contact hours are earned. Basic computer skills which will be helpful include: creating, saving and retrieving word documents, attaching documents, communicating via email, copying and pasting within documents and web addresses in the internet browser, and, exploring the internet. The instructor will contact students by email a few days prior to the start of class with a link to the online class and instructions on how to get started.

This course is being conducted in compliance with Illinois Department of Public Health (IDPH) regulations in accordance with Illinois Administrative Code Section 395.160 Instructor Requirements. NOTE: Instructor requirements (section 395.160) have changed effective

February 20, 2020 - affecting nurses with nursing degrees of BSN and higher.

Check these requirements before registering for this course! To view the requirements use the following link: <http://www.ilga.gov/commission/jcar/admincode/077/077003950A01600R.html>.

NOTE: Direct questions pertaining to these requirements and RN's eligibility to IDPH Training & Technical Section, Randy Carey-Walden at dph.bnapt@illinois.gov.

The instructor will contact students by email a few days prior to the start of class with a link to the online class and instructions on how to get started.

Required textbook: *DeYoung, S. (2015). Teaching Strategies for Nurse Educators (3rd). Pearson Education, Inc.: Upper Saddle River, N.J. ISBN-13: 978-0133565232.* This textbook must be purchased prior to the start of class, and it can be purchased in the IVCC Bookstore or online at www.ivcccampus.com

Bookkeeping Certificate

How do you manage the finances of a business? Whether you are an entrepreneur, running a family business, or just looking to advance your career and add to your skill set, this Bookkeeping Certificate will provide you with the knowledge needed to measure, and manage, the financial health of your business. This program focuses on cash basis accounting. No one will care more about the financial health of your business than you! It's imperative that you understand how the process works and are able to complete the accounting cycle accurately and in a timely fashion. Even if you plan to outsource your bookkeeping needs, you should still understand how the process works. No one should be clueless when it comes to the finances of their business.

Certificate in Project Management

In today's business environment, there is a need for good project management. Project management provides visibility of project health to the business and the customer. Through continuous monitoring, early detection of variations to plan, schedule, and budget can be communicated to stakeholders for quick resolution, including project cancellation. Project management is one of the fastest paths to promotion by increasing your network through greater exposure. First, gain the skills, tools and templates to confidently develop and maintain a project. An overview of salaries, certification costs, education and experience requirements are provided. Then acquire a well-rounded knowledge of the five project management processes relating to the project management body of knowledge guide. This basic information will assist you in learning the beginnings of project management, whether you are interested in project management, in a project management field, or in any line of work. Finally, learn the 10 project management knowledge areas and their support role and relationships to the five project management processes.

The Project Management Certificate consists of three courses. Each class builds off the previous class.

- Introduction to Project Management
- Project Management Processes
- Project Management Knowledge Areas

LEADERSHIP

NEW! Strategic Planning

Every organization needs to position itself differently for success in this century. And only leaders can both create a successful strategic plan and oversee its implementation. Create a new leadership skill that will last a lifetime, and outlast industry and career changes. Come away with both the conceptual tools and a new leadership approach to move from dreams to reality for your organization and your career.

Topics include:

- What strategic planning is, and isn't
- Why strategic plans fail
- The 6 Components of Strategic Planning
- Constructing objectives
- Forming strategies
- Assigning tactics
- An 8 Stage Model for Needs Assessment and Marketing Research

NEW! Emotional Intelligence Create a More Engaged Workspace

Emotional Intelligence (EI) is defined as managing your emotions and realizing that how you show up every day affects the morale and productivity of others. Employees are your best asset and how we interact is key to their level of engagement and effort put forth when contributing to the overall success of the company. Employees are your best asset and how we interact is key to their level of engagement and effort put forth when contributing to the overall success of the company. **CEU:3**

During this session we will focus on:

- Understanding the neuroscience of EI and how our responses/reactions to our emotions affect outcomes on both a personal and professional level
- Impact of engaged employees in the workplace versus disengaged employees
- Tips and tools on how to communicate with others, assuring what you say is what they perceive

NEW! Essential Coaching Skills for Leaders

With business moving at breakneck speed, frequent job shifts and limited in-house training, professionals of all levels grapple with change. As a result, organizations are in dire need of leaders who can guide their colleagues through workplace challenges, help them improve performance and lead them through career decisions. This program offers basic coaching frameworks for internal employees to strengthen their coaching skills.

Topics covered include:

- How to design a coaching engagement
- The role of assessments in coaching individuals and teams
- Overcoming common coaching challenges
- Core principles and qualities to look for when hiring coaches for your company

This fundamental program is designed for internal managers who want to develop a coaching approach to leadership, as well as HR professionals who want to coach leaders within their organization or who are responsible for hiring external coaches. **CEU: .4**

TRUCK DRIVER TRAINING

For more information on either of the programs below, call the IVCC Truck Driver Training Center at 815-224-0265.

Class B 40-Hour Course

Students will be expected to demonstrate the proper preparation, handling, safety, and driving skills necessary to pass the Commercial Driver's License (CDL) Driving Examination. This course will involve yard work, pre-trip and driving on city street and highways. You must be at least 18 years old, hold a valid driver license, meet the medical requirements of the Federal Motor Carrier Safety Regulation and hold a current CDL Permit. In addition, you must pass a drug screen and provide a motor vehicle report. Participants will need to provide Class B truck for inspection before class start date.

40-Hour Equipment Refresher

This program includes 40-hours of hands-on, on-the-road driving equipment and a review of class A commercial driver's license requirements. This program is intended for past CDL Class A holders that need to retest/renew their license at the DMV. Participants must have a current DOT physical, drug screen, motor vehicle report and a Class A learner permit. A driving test is required to qualify for the refresher program.

Online Hazmat Certification

This course will cover the various areas of hazardous materials and the intent of the regulation. Topics will include hazardous material transporting; communication rules; bulk packaging loading and unloading; driving and parking rules; emergencies; as well as terminology. Practical experience will be shared. This course meets the Federal Motor Carrier Administration requirement for all CDL holders to have proof of hazardous material training before they can add the endorsement to their license. Participants will receive a certificate of completion upon passing the final exam with an 80% or higher.

WATER PROGRAMS

IVCC, in partnership with Black Hawk College, will be offering Drinking Water and Wastewater courses to help prepare for the operators' state exam and Illinois EPA certification. These courses will be presented, online live, via Zoom and can also be attended to fulfill Renewable Training Hour (RTH) requirements. For more information go to ivcc.edu/waterclasses.

MANUFACTURING BOOTCAMPS

Join IVCC for a new series of technical training that brings real-world applications into the classroom with specially designed activities that are proven to positively affect training outcomes, enhance skill set knowledge and reinforce learning retention. Obtain the principles and essential skills needed so that management, craftsmen, operators, engineers and technicians can transition performance to an improvement-based, results driven culture that is sure to leave your organization's processes reliable. These sessions will be offered in partnership with Reliability Solutions.

NEW! Essential Craft Skills 1 Precision Assembly & Installation

This seminar focuses on essential craft skills in precision assembly and installation. It aims to address the lack of understanding and application of correct "precision" principles and techniques among craft technicians. The importance of reliability and long-term cost-effectiveness in maintenance practices, moving away from a "remove and replace" mentality will also be discussed. Participants are introduced to various maintenance philosophies and learn how to use vibration instrumentation to identify machinery

improvements. Hands-on exercises and dynamic demonstrators are used to reinforce correct principles and allow technicians to practice new techniques. By the end of the seminar, participants gain practical tips and a renewed approach to maintenance activities, developing correct assessment, measurement, troubleshooting and reliability improvement habits.

Topics include:

- Coupling assemblies
- Bearing types and applications
- Belt drives
- Precise alignment principles
- Torque requirements
- Common assembly errors and the distinction between reliability and runability.
- Measuring tools
- Lubrication techniques

While the seminar is primarily aimed at participants with a mechanical craft background, it is also valuable for production operators and engineers. First-line supervision is encouraged to attend to demonstrate support and understanding of the essential principles. **CEU: 4.0**

Mon-Fri 8 AM-4:30PM **Sep 25-29**
5 Sessions **Reliability Solutions**
C-325/326, IVCC **Class ID: 11260** **\$2100**

NEW! Essential Craft Skills 2 Light Manufacturing & Distribution

This hands-on skill building course focuses on a systematic approach to identifying and reducing common machinery failures in conveyance systems, particularly belt conveyors. Participants learn a root cause failure elimination process that enables them to effectively address component failures and convey their findings to facilitate accurate machine repairs. This course emphasizes effective communication skills alongside precision skills, such as vibration analysis, to enhance troubleshooting, repair and communication abilities.

Topics include:

- Root cause failure elimination
- Machinery inspection techniques
- Rolling element bearings
- Lubrication fundamentals
- Conveyor components and installation
- Pneumatic systems
- Identifying and eliminating common failures

Technicians, maintenance supervisors, area maintenance managers, operations management and supervisors, maintenance planners, and engineers can all benefit from this seminar. **CEU: 4.0**

Mon-Fri 8 AM-4:30 PM **Oct 9-13**
5 Sessions **Reliability Solutions**
C-316, IVCC **Class ID: 11261** **\$2100**

NEW! Leading Reliability Manufacturing Skills Bootcamp

Leadership with a global view is crucial for driving improvements in the right direction and at the appropriate levels. This session provides insights into best-in-class performers and their approaches to work, measurement tactics for reviewing success and the incorporation of skill development on the floor. Senior-level managers will find practical tips and vital information applicable to their field, facilitating documentation and reassessment of sustainability within reliable manufacturing. You will discuss how to improve the reliability of various aspects within manufacturing processes, such as assets, engineering, design, purchasing and warehousing. Emphasis is placed on the need to develop and implement correct principles and practices on the floor while aligning them with corporate strategic intent.

Topics include:

- Asset strategy development
- Condition monitoring techniques such as vibration analysis and electrical condition monitoring
- Precision maintenance® and machinery assembly and installation
- Component failure identification and control
- Pumps and piping systems
- Asset operation and troubleshooting
- Root cause problem elimination
- Implementation of reliable manufacturing

Corporate, senior and area/line managers, superintendents, as well as maintenance and operation supervisors will benefit most from this 3-day training. Participants should expect thought-provoking and actionable observation challenges. Foundational elements such as effective communication, reliability strategy development and work management are also addressed. **CEU: 2.4**

REAL ESTATE

Real Estate Broker Pre-License

Call (815) 224-0447 to enroll in REA-1200-300.

This course provides students with instruction in real estate fundamentals. Students are required to attend all sessions which include introduction to the license law and real property, basics of agency, seller and buyer relationships and counseling, local, state and federal laws, brokerage, property management, leases, independent contractor and employee status, financing, contracts and title records and transactions. This course is appropriate and required for anyone interested in obtaining a broker license in Illinois and fulfills the 75-hour education requirement for obtaining an Illinois Real Estate Broker license. **Credit Hours: 6**

To obtain an Illinois real estate license, you must be at least 18 years old, have a Social Security Number or Individual Taxpayer Identification Number, and have a high school diploma or G.E.D. certificate. **If you have any disabilities that require special accommodations, please identify those special needs.**

Textbooks are required and can only be purchased online at ivcc.ecampus.com. An additional binder is required for this class and must be purchased at the IVCC Bookstore.

Scholarships and GI Bill Tuition Reimbursement for Veterans may be available through the Illinois Realtors Association. Visit illinoisrealtors.org for more information.

Please note: This class is a credit course. Enrollment must be completed through the IVCC Registration Department by calling (815) 224-0447 or online at ivcc.edu. Please reference course number: REA-1200-300.

Developing the Socialization Skills for Students with ASD in the Inclusive Classroom

Today, every school in America has students who have been diagnosed with ASD (Autism Spectrum Disorder) a neurological disorder on the autism spectrum. The effects of this disorder vary widely, but it is important for every teacher to understand how to recognize behaviors that may indicate ASD. In this course, you take away strategies for working effectively with ASD students. And you will find out how to work effectively with parents to create the most positive learning environments for children and teens with this disorder.

The course is geared for K-12 teachers, but it is also relevant for counselors, faculty in higher education, parents and anyone else interested in understanding this important issue.

16 PD from Illinois Valley Community College or 3 Grad Credits (Optional) from Framingham State University, a leading provider of K-12 teacher training. Grad credit requirements are to complete the four-unit quizzes at 80% level (you may retake them until you reach 80%); make at least one comment in each of the four unit discussions; and write a 3-5 page paper based on

the course, submitting it within two weeks after the course ends. PRDV 79520, additional \$225 cost, payable to Framingham State University. Additional information sent for pd hours or grad credit after you register for the course.

Creating the Inclusive Classroom: Strategies for Success

Get the training you need to reach the diverse mix of students you face every day. You will learn proven strategies for inclusion that turn diversity into opportunity. With a mix of students who have learning disabilities, neurobiological disorders, and physical challenges, the modern classroom requires an efficient and effective teacher who can prioritize under tight deadlines and be creative on demand. In this course, you will discover how students with special needs can become a part of the mainstream. You will learn to see the inclusive classroom as a home for these students, exploring how all students can benefit from an adaptive learning environment. You will examine how each child learns and what you can do to help them develop new strengths. You'll gain a deeper understanding of the opportunities offered by inclusion and how to build collaborative partnerships with the special educator and classroom aides. Above all, you'll discover creative, low-budget strategies for turning your inclusive classroom into a nurturing, supportive learning environment that helps every student. **[24 PD].**

Differentiated Instruction in the Classroom

This course explores 10 practical Differentiated Instruction integration strategies. Each strategy is accompanied by at least three sample lessons, as well as tips for applying them to best improve learning outcomes for your students. In this course you will discover Differentiated Instruction strategies including interest centers, flexible grouping, cubing, and tiering. Every lesson is packed with real-world examples that will help you put these strategies to use in your own classroom. You will take a look at integration across different subjects, grade levels, and learning profiles as you gain helpful knowledge on bringing Differentiated Instruction to your classroom.

This course is a must for today's teachers who often have to differentiate quickly and with minimal resources. Differentiated Instruction is an excellent launch pad for ramping up your creative classroom, and with the tips in these lessons, you will be meeting the needs of your diverse learners in no time. **[24 PD]**

FOOD SERVICE

In-Person Class | In-Person Exam Food Service Sanitation

8 Hour Class Applied Food Service Sanitation is designed to assist the manager or potential manager applying sanitation principles in the operation of a food service establishment. Students will learn to identify the causes of food-borne illness, identify and apply correct procedures for cleaning and sanitizing, recognize problems and potential solutions associated with facility, equipment and layout. The Illinois code related to food service establishments will be discussed. Students will take the ServSafe Protection Food Manager Certification exam in class at the end of the course. **This class is required in Illinois for**

Certified Food Protection Manager Certification (CFPM) and is an ANSI certified course accepted by the Illinois Department of Public Health (IDPH). Upon successful completion of the exam with a passing grade, students will attain the ServSafe CFPM. Licenses are valid for five years.

Don't Forget Your Textbooks!

Required: ServSafe Manager, 7th Edition. Textbooks are now available for purchase online only. Students should plan to purchase the book and begin review prior to class due to the fast-paced nature of the class. Purchase your textbook at ivcc.ecampus.com. Books will be delivered to your home address.

NEW! Race to the Moon: Project Mercury

Project Mercury was the first manned space program in the United States. These early space missions taught NASA many important lessons - how to reach orbit, how man can survive and function while in orbit, and how to both launch and recover astronauts and their vehicles. From 1958 to 1963, NASA conducted 20 unmanned test flights and 6 successful manned flights. Find out what the objectives and goals of the Mercury Program were and its importance to landing man on the moon. Join us as we discuss these missions, the original 7 astronauts nicknamed the Mercury 7, and find out why they truly had "the right stuff". This will be the first in a series of three classes.

NEW! Living Behind the Iron Curtain

Pursued by the Americans and British from the West and Soviet forces from the east, Nazi forces in Europe were in retreat by early 1945. Areas occupied since 1940-41 found themselves freed from Nazi control and oppression. Nations in Eastern Europe - Poland, Czechoslovakia, Hungary, Romania and Bulgaria - were liberated by the Soviet Red Army. After the war ended, the Soviets remained in these countries longer than expected. By the late 1940s, most of eastern Europe was cloaked behind what would become known as the Iron Curtain. What was it like to live behind the Iron Curtain? Alina Warner shares from her experience as a child growing up in Romania, witnessing the isolation of the people and the hardship of the totalitarian regime. As a teenager she remembers living through the 1989 Revolution that freed the people from the dictatorship of Nicolae Ceausescu.

NEW! The James Webb Space Telescope

The Webb Telescope is the most recent and most developed space telescope. Launched in December 2021, this telescope is set to study the history of our universe. From the first moments in the birth of the universe after the "big bang" to the more recent formation of our own solar system. This course will present a history of space telescopes, and how they help scientists determine the origins and evolution of galaxies and stars and planetary systems. We will also see the beauty of deep space photography in capturing the vast array of objects in our sky.

Stocks, Bonds & Investing

Looking for a good solid class in the basics of stocks, bonds, finance, and investing? Haven't the slightest clue how to prepare for retirement, pay for college, or even manage your personal finances? Do you wish you could do it all without having to pay a broker or a financial advisor? This class walks you through the fundamentals of investing. The course will not only teach you about the stock markets, 401k plans and retirement, but it will also address personal financial issues that are often ignored, but absolutely essential, to your success as an investor. Each lesson explains these concepts in detail, so you understand how and why things work in the investment world. Provide yourself with the independence and confidence you will need to make your own investment decisions. *Self-paced. Start upon registration.*

NEW! How to Play Piano by Ear

Learn one of music's deepest mysteries: how to play songs without relying on music. A very practical presentation of music theory that includes predicting chord progressions, learning from recordings, and transposing—all expressed in everyday language. This is an ideal follow-up to the "Instant Piano" class and is open to anyone who has a basic understanding of chords on any instrument. Expand your musical horizons, and free yourself from sheet-music dependence, and be the life of the party! Prior experience with chords recommended. Fee includes the online book, online follow-up lessons, a recording of the class and an optional monthly question and answer session. Class is held online using zoom.

Topics include how to find the starting note, how to determine when chords change, how to predict the chord progression, how chords help you find the correct melody, how the melody helps you find the correct chords, how to learn songs from recordings, how to transpose, the Universal Key Signature, how to use the Circle of Fifths, how to recognize the most common chord patterns.

Tortellini: Twist, Cook, Eat, Repeat

Tortellini: Twist, Cook, Eat, Repeat
Dee has been making these Italian treasures from the time she was a young girl. Relatives and elder ladies of Mark, Illinois taught her how to make authentic pasta. Tortellini is a meat and cheese filled pasta that is twisted to resemble a belly button. As a child she sat around the big dining room tables and learned how to make this Italian "staple" from the experts... relatives from the Old Country. In this class we will learn how to make the dough and filling and how to twist them. Follow by cooking and of course eating them. *Please bring an apron, pizza cutter and a cutting board. Bring a bottle of water, soda or coffee. There is a \$25 material fee payable to the instructor the night of class.*

Survival Skills: Primitive Trapping, Making Cordage, A Figure-4 Deadfall Trap & A Rolling Snare

Combined with hunting, trapping and snaring give a survivalist the best chance of securing food in the wild. Traps and snares can be set to save time to bring in food while the survivalist is busy doing other things. The figure-4 deadfall trap and rolling snares are two of the most simple but effective ways to harvest well-needed protein to fuel your body to survive. And cordage, making a small rope out of natural materials, is another useful skill for making tinder, fire, shelter, snares and traps, lashing things, and can be made out of surprisingly a lot of stuff in the wild! *This class will meet mostly outdoors. Bring a knife, note-taking materials, water bottle and lunch that does not require refrigeration for the four-hour classes. Ages: 18+*

NEW! Growing a Cocktail Garden

Fresh ingredients can be the difference between a good cocktail and a great cocktail. Level up your happy hour with this interactive course, where participants will learn three cocktail recipes utilizing ingredients you can grow in your own garden. Garden and Cocktail Enthusiast, Natalie Martin will lead participants through the making of each cocktail, how to grow the plants, and then participants will get to sample each cocktail. Don't miss this evening out to freshen up your Happy Hour! *Ages: 21+ There is a \$10 material fee payable to the instructor the night of class.*

NEW! "Birds, Bees & Butterflies, Please" Gardening for Pollinators

Butterflies, bees and birds, they are all important pollinators for plants, whether it's agriculture or your own personal landscape. If you're looking to support these necessary creatures, sign up for this presentation to find out more. Environmental educator, Natalie Martin will lead you through what a pollinator is, what kinds of plants attract them, and how to grow those plants in your own yard. This hour-long program will allow plenty of opportunity to ask questions, and brainstorm ideas to attract a variety of species to your yard.

NEW! "It's for the Birds" Landscaping for Birds

Interested in attracting more birds to your yard? Then you won't want to miss this educational program from environmental educator, Natalie Martin. Natalie will guide you through common species of birds in our area, their sight and bird call identifiers, and how to attract them to your yard with shrubs, trees, grasses, and other plants. Participants will leave this course knowing how to proceed with planting popular plant species for birds and how to tell if different birds visit their yard. *Weather permitting, at the end of class an optional 30-minute walk around the grounds at Nell's Woodland will help us identify local bird and plant species after the hour-long presentation.*

PARANORMAL INVESTIGATION

Introduction to Paranormal Investigation

Join The Illinois Paranormalists (TIP) for an exploration in the realm of ghost hunting. During the session TIP members will share their experiences with investigating ghost sightings and sounds, discuss techniques used in an investigation and present the equipment they use. At the end of class, we will listen to, and view examples of evidence collected by TIP on previous investigations.

Find out:

- How likely it is that you will “see” a ghost or apparition?
- What does a ghost “sound” like?
- What is an EVP and how is it used?
- Why is debunking important?

Locations they have investigated include: the Amboy Depot Museum, Sheboygan Asylum, Whispers Estate, Chaney Mansion and Mineral Springs Hotel among others.

Yoga Unique to You

This class will provide you with an opportunity to cross train by participating in two different training methods. This functional fitness class will encourage coordination skills, tone your body, zap calories and metabolize fat. You will build a strong core: abs, hips and back, to support and improve what you do every day. Start at a beginner's level and gradually increase to a more advanced level

as improvement is shown. We will also incorporate a HIIT (High Intensity Interval Training) method of exercise into this class. Have fun and burn calories long after class has ended. *Please bring water, a sweat towel and an exercise or yoga mat.*

Email: continuingeducation@ivcc.edu or call (815) 224-0427 to be added to our e-news list!

Music Legends & Pop Icons

Includes: motorcoach transportation, professional guided tour, tour of Chess Records, dinner at House of Blues, lower balcony tickets to MJ the musical, gratuities and snacks.

No other city was impacted more than Chicago - especially for music - it was in Chicago that the 3 pillars of American Music: Blues, Jazz, and Gospel saw the greatest evolution! Louis Armstrong, Thomas Dorsey, Mahalia Jackson, Muddy Waters... all have an influential role in Chicago. Over the next few decades, the music will continue to evolve, especially with Swing from Jazz, Soul from Gospel, and Rock n' Roll from Blues! Several music legends performed, recorded and lived in Chicago. We see our tour this afternoon will visit the legendary hit factory Chess Records (now Blues Heaven Foundation). The studio was home to many artists who brought music to our ears and hearts, including Etta James' recording of "At Last", and Chuck Berry's "Johnny Be Goode." Between 1957 and 1967, brothers Leonard and Phil Chess made this modest facility the creative home for artists such as Muddy Waters and Chuck Berry! Next, we will enjoy an included dinner at the iconic House of Blues. This evening we will take our seats in the lower balcony at The Nederlander Theatre for MJ,

Pre-registration is required for all classes. Online registration is encouraged to ensure availability of classes.

Payment is due at the time of registration.

Fall into Fun!

Includes: motorcoach transportation, visit to Historic Wagner Farms, dinner included, Night of 1,000 Jack O'Lanterns at Chicago Botanic Garden, gratuities and snacks.

Visit Historic Wagner Farm in Glenview, Illinois, a historic jewel of the North Shore and the site of the highly-popular Wagner Farm Heritage Center. Meet the draft horse team and find out about proper horsemanship, draft horse breeds, and how farmers used these particular animals. Activities include grooming, harnessing, and proper handling techniques. Have free time to explore the grounds step inside a two-story silo and "shop" in a 1930s grocery store. We will also be mixing some weird and wonderful Chicago facts and locations into our day. Visit a weird and wonderful location in Niles, that will make for the perfect photo opportunity! This evening we will visit Chicago Botanic Garden to experience one of their newest events. More than 1,000 hand-carved pumpkins - some as large as 150 pounds - will light up the night at our Halloween event. Night of 1,000 Jack-o'-Lanterns takes advantage of the Garden's glorious fall setting, and features only real pumpkins. On a paved path, the evening takes on a festive air, with costumed entertainers and live carving demos. It's an unforgettable experience not to be missed! *Please note: there is standing and walking throughout this program. Night of 1,000 Jack-o-Lanterns is approximately a 1-mile length that you will walk at a self-guided pace.*

Date: Wednesday, October 18
Time: 11:30 AM-10 PM
Where: IVCC, Parking Lot #4

Holiday Bakery Bus & Chicago Cheer

Includes: motorcoach transportation, visits and many samples at a variety of ethnic bakeries and specialty shops, lunch at a Chicago Polish restaurant, all tips, gratuities and snacks.

Travel around the world as we head to Chicago for a new installment of our popular bakery bus

tours! This time we are heading to the Windy City! We will spend the day visiting a variety of ethnic bakeries and specialty shops well known for their delicious goods. The tour feature stops throughout the city while enjoying stories of Irish, German, Polish, Greek, Italian and Mexican holiday traditions, among others, that celebrate Chicago's rich heritage. You will be treated to signature cookies, candies or pastries at each stop. We will be visiting four-five bakeries, including a Greek bakery, visit to Polonia, shopping at a Polish grocery store and a stop at an Italian bakery in Little Italy, family owned & operated since 1908. **There will be many stops along the way throughout the day!** Bring a tote or canvas shopping bag to keep track of all your goodies. There will also be opportunity to shop at the locations we will be visiting. We will be sure to have lots of fun! Don't forget to wear your Santa hat, elf stockings, ugly Christmas sweater or even your pretty Christmas sweater..all are welcome as we experience a variety of holiday customs from around the world all in one day! **Please note: there will be multiple stops throughout the day, we will be loading and unloading from the bus frequently upon arrival in Chicago. Bakery locations will be confirmed closer to departure.*

Date: Wednesday, November 29
Time: 7:30 a.m.-6:30 p.m.
Where: IVCC, Parking Lot #4

Happy Holidays Mystery Trip

Includes: motorcoach transportation, professional guided tour, dinner, all tips, gratuities and snacks.

It will be a merry mystery! Where to? Only Santa knows but we can tell you that dinner is included and there will be some goodies and merriment along the way. This trip will be sure to get you into the Holiday Spirit! Step aboard, as the coach moves merrily along. We will return home full of holiday cheer and will have found new travel friends, so dear. We will release clues as departure gets closer. **First clue:** Departure will be from IVCC with a pick-up location in Ottawa.

Date: Wednesday, December 13
Time: 12 PM-10 PM
Where: IVCC, Parking Lot #4
Class ID: 11354
Fee: \$159

IVCC Lifelong Learning Classes Offered at Nell's Woodland, Ottawa

Illinois Valley Community College has partnered with Nell's Woodland Foundation to provide a variety of continuing education opportunities aligned with the Nell's Woodland spheres of influence.

The Nell's Foundation has been made possible through the inspiration and generous support of former Ottawan Mr. James Downey. Located at 2000 Alexis Avenue on 58 acres of beautiful oak woodland preserve, his contributions have allowed the creation of an engaging and evolutionary place. The mission of the Nell's Woodland Foundation is to provide people with a connection to nature, programs, and educational opportunities that support stewardship in the areas of Ecology, Wellness and the Arts.

Fall offerings feature a partnership with Illinois Valley Community College, providing a variety of continuing education opportunities aligned with the Nell's Woodland spheres of influence, along with public access to the park on Sundays and Monday from 7 a.m. to 7 p.m. Additional plans are underway for a variety of other opportunities and programs to be announced via the Nell's Woodland website and future press releases.

The Nell's Woodland community aspires to enhance and nurture the natural landscape of the 58-acre property. To date they have developed a walking pathway system that traverses 6,800 feet traveling across three distinct ridges allowing individuals to immerse themselves in the serenity of the preserve. For visitors and friends, they have developed facilities to support and enhance activities. With the belief that nature has the capacity to inspire, promote curiosity and generate creative ways of thinking and expression through the arts Nell's Woodland is open to all ages, backgrounds and demographics.
