IAI Equivalent –**Only for Transfer Courses**–go to <http://www.itransfer.org>:

CATALOG DESCRIPTION:

This course is designed for the student desiring to reach a beginning level of fitness. Emphasis is placed in three areas of physical fitness: strength, flexibility and cardiovascular endurance. Every student must attend an orientation session at the beginning of the class. Each student's level of fitness will be evaluated through a pre- and post-physical fitness assessment.

GENERAL EDUCATION GOALS ADDRESSED

[See the last page of this form for more information.]

Upon completion of the course, the student will be able:

[Choose those goals that apply to this course.]

- To apply analytical and problem solving skills to personal, social and professional issues and situations.
- To communicate orally and in writing, socially and interpersonally.
- To develop an awareness of the contributions made to civilization by the diverse cultures of the world.
- To understand and use contemporary technology effectively and to understand its impact on the individual and society.
- To work and study effectively both individually and in collaboration with others.
- To understand what it means to act ethically and responsibly as an individual in one's career and as a member of society.
- To develop and maintain a healthy lifestyle physically, mentally, and spiritually.
- To appreciate the ongoing values of learning, self-improvement, and career planning.

EXPECTED LEARNING OUTCOMES AND RELATED COMPETENCIES:

[Outcomes related to course specific goals.]

Upon completion of the course, the student will be able to:

1. understand the basic components of a physical fitness program so that he/she will better understand what is being accomplished during exercise.

- 1:1 understand concepts.
- 1:2 understand Target Heart Rate procedure.
- 1:3 understand and demonstrate concepts of strength training.
- 1:4 understand and demonstrate concepts of flexibility training.
- 1.5 understand components of body composition.

2. demonstrate proper usage of cardiovascular machines.

- 2:1 be instructed on proper use of exercise bikes.
- 2:2 be instructed on proper use of stair steppers.
- 2:3 be instructed on proper use of treadmills.
- 2:4 be instructed on proper use of cross trainers.

3. demonstrate proper usage of weight training machines.

3:1 understand and demonstrate proper techniques of weight training equipment.

4. engage in vigorous exercise activity.

4:1 use all appropriate equipment within the context of their exercise program.

5. demonstrate improved strength, flexibility and cardiovascular endurance.

5:1 be pre- and post-tested at the beginning and ending of each semester to measure fitness improvements.

6. Set-up an individualized fitness program.

6:1 be instructed on how to design an exercise program to suit their individual needs and goals.

COURSE TOPICS AND CONTENT REQUIREMENTS:

Week 1 - Orientation

Week 2 - Fitness assessment

Weeks 3-15 - Students will come to the Fitness Center and exercise according to the recommendations of his/her fitness profile. Individual changes will be made as needed.

Week 16 - Post-testing
